

The magic of outdoor living, brought indoors

Hello daylight, hello outdoor feeling!

SKYLUX[®]
Hello daylight!

BRINGING THE OUTDOORS IN

Dear outdoor fan,

We know that gardens are the perfect environment for fresh air and natural daylight - sanctuaries to enchant us all summer long. Skylux's range makes that enjoyment possible all year round. Our patio and canopy roofs create beautiful outdoor areas, perfectly protected from the elements. And with our affordable prices and speedy installations, your vision can be realised sooner than you might think.

HELLO DAYLIGHT!

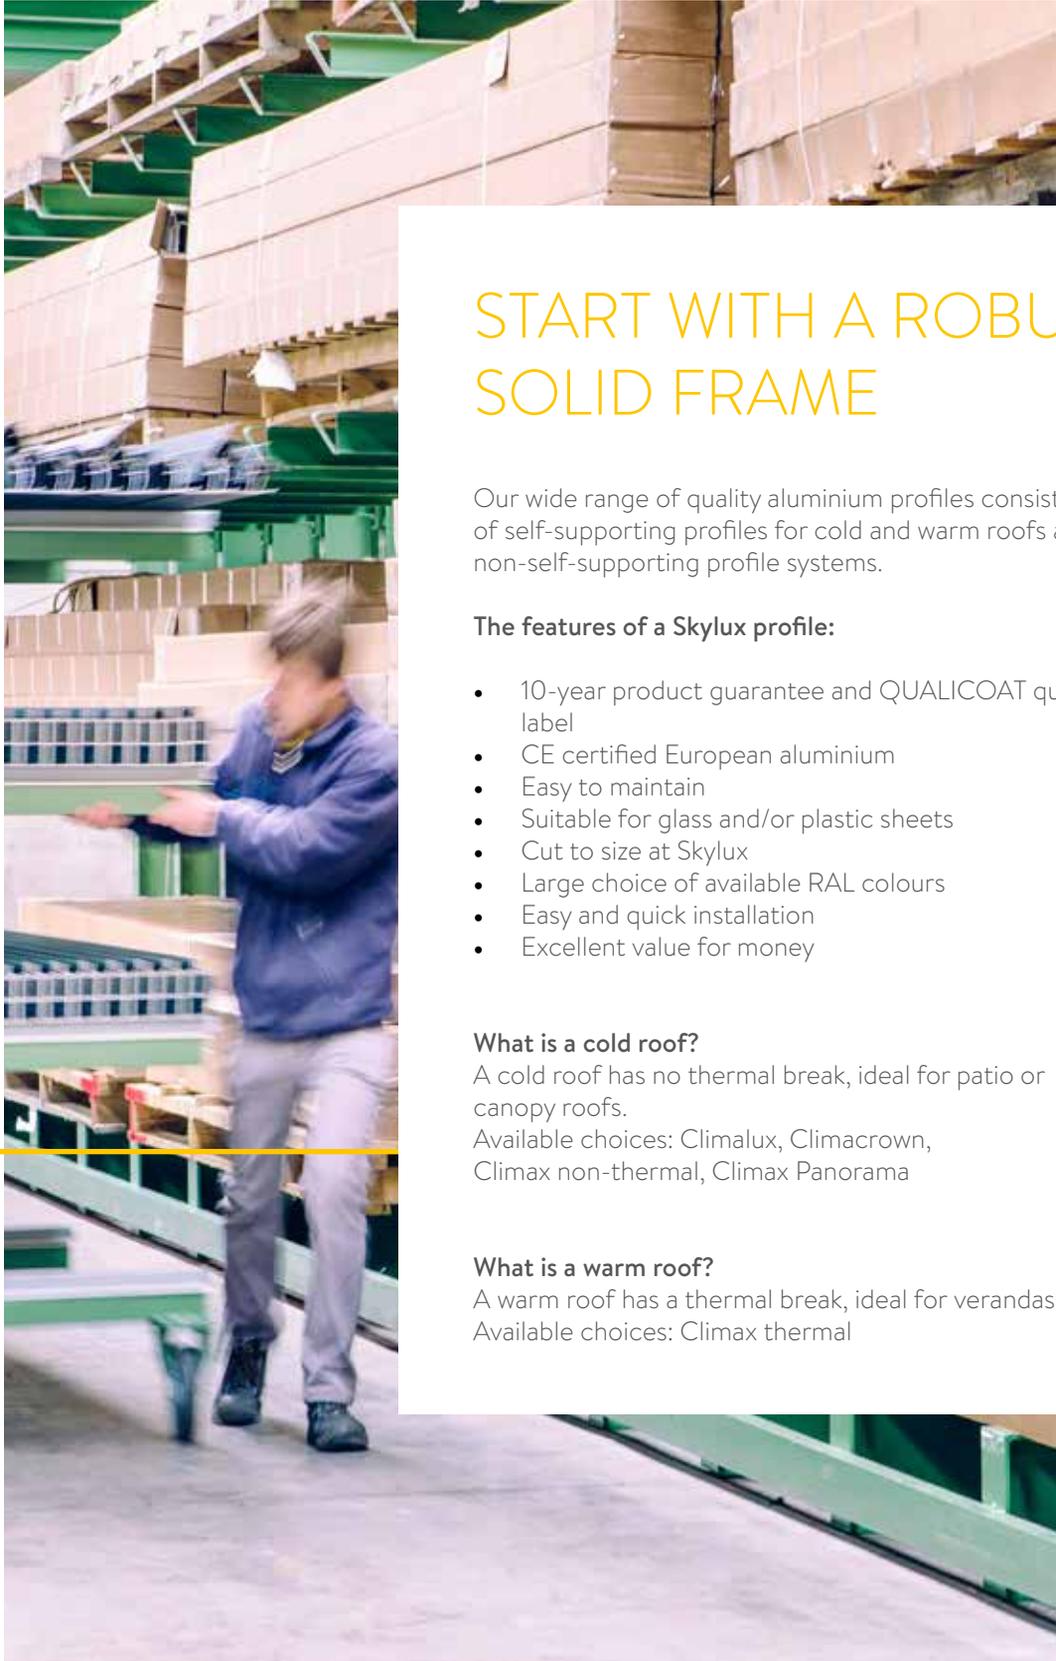

About Skylux

DAYLIGHT IS IN OUR DNA

We have a long history with daylight. 65 years ago, we were founded as a glass and mirror wholesale business called AG Plastics, based in Belgium. Today, our skylights are known throughout Europe for their quality, style and durability. Beside skylights and barrel vaults, we also produce quality aluminium frames to allow fast construction of patios or canopy roofs and roofs with thermal break that are suited for verandas. Over the decades, our mission has never changed. Our driving force is to bring as much light as possible to your life, to be enjoyed all year round.

1954

START WITH A ROBUST, SOLID FRAME

Our wide range of quality aluminium profiles consists of self-supporting profiles for cold and warm roofs and non-self-supporting profile systems.

The features of a Skylux profile:

- 10-year product guarantee and QUALICOAT quality label
- CE certified European aluminium
- Easy to maintain
- Suitable for glass and/or plastic sheets
- Cut to size at Skylux
- Large choice of available RAL colours
- Easy and quick installation
- Excellent value for money

What is a cold roof?

A cold roof has no thermal break, ideal for patio or canopy roofs.

Available choices: Climalux, Climacrown, Climax non-thermal, Climax Panorama

What is a warm roof?

A warm roof has a thermal break, ideal for verandas.

Available choices: Climax thermal

2019

NEVER MISS THOSE SPECIAL MOMENTS
*The popular choice for a standard
multi-purpose roof*

CLIMALUX

Economically priced self-supporting aluminium profile system

A memorable summer evening with friends? An outdoor birthday party that's not ruined by the weather? A barbecue that doesn't get rained off? The Climalux roof system is the solution, whatever your dream.

- Budget-friendly and qualitative
- Gutter and wall profile form 1 piece
- Standard sizes in stock
- Custom-made
- Maximum depth: 4.5 m

CREATE EXTRA SPACE FOR YOU AND YOUR FAMILY

*The veranda solution
that ticks all the boxes*

CLIMAX

Flexible self-supporting aluminium veranda system

Get the daylight you crave, create a room for the children to play in, or use the space to entertain your friends. The Climax is in a class of its own and enables outdoor life to be lived at its fullest.

- Many combinations possible
- For warm (veranda) and cold roofs (patio/canopy roof)
- Available in standard colours and all RAL colours
- For veranda sheet of 16 mm / 32 mm and glass
- Pitch of 5° to 45°, max. depth of 6 m
- Integrated water drainage possible

THE SKY IS THE LIMIT
Open up your view

CLIMAX PANORAMA

State-of-the-art roof to bring that luxury holiday feeling to your home

Outdoor feeling at its best with the Climax Panorama.

- Span length up to 7 m
- Available in standard colours and all RAL colours
- For 16 mm / 32 mm veranda sheets and glass

A TRULY UNIQUE SOLUTION!

The Climax Panorama roof is suitable for a span length of up to 7 metres without intermediate posts which would disturb your view.

*Choose a sloping roof with
the appearance of a flat roof*

CLIMACROWN

A sleek and modern roof

If you are drawn to the modern flat roof with the advantage of a sloping roof for water drainage, the Climacrown won't disappoint. The Climacrown is based on the Climalux profiles, with a modular crown profile as an extra feature.

- Height of the crown profile depends on the roof's depth and is built in stages of 75 mm
- There are no screws visible on the outside
- LED lighting can be provided
- Available in the Climalux RAL colours

ACHIEVE THE ULTIMATE FINISH

“Really make your patio roof stand out from the crowd with our superior range of optional extras. Softly illuminate cosy evenings with LED lights, or protect yourself from wind and rain with sliding glass doors.”

CLIMAGLIDE

Climaglide protects against wind and rain

The Climaglide sliding glass doors (single glazed) run on two channels to protect you from the wind and rain. Bring the warm summer evenings inside and never miss a moment.

A sleek and modern design is combined with high-quality materials.

CLIMALED

Ideal lighting with Climaled

Climaled is an easily installed and pre-assembled dimmable LED spotlight system. The perfect solution for your veranda.

*“No garage?
No Problem.
Climacar carport -
the ultimate protection”*

CLIMACAR

Protecting your car against all weathers, from bright sunlight to heavy hail and snow, can be challenging, particularly with the increase in extreme weather events associated with climate change.

Skylux's new Climacar carport provides a strong defence against anything that the seasons can throw at you! Easy to install and available in several sizes, colours and versions.

The features of Climacar

- Resilient and freestanding carport with a vaulted roof
- Only 4 posts instead of 6: easier for you to get in and out of your car
- Max. height of 3m25
- Quick and easy installation
- Several standard sizes: 3x5 / 3.5x5 / 3x7 / 3.5x7
- Resilient to a snow load of max. 650 N/m²
- Optional: water drainage with aluminium cover profiles

“Pergolux preserves the rural look of your home and keeps you out of the rain”

PERGOLUX

Aluminium profiles for a wooden supporting structure

Stylish and freestanding, Pergolux transforms your patio or veranda roof into an eye-catching structure.

- Aluminium profiles for veranda
- Inexpensive and easy installation
- Numerous possibilities
- Unique clip system
- Aesthetically satisfying

VERANDA SHEETS

Protect yourself from the elements. Choose the right veranda sheets.

Glass

All our profiles systems are suitable for safety glass (8, 10 or 12 mm) or for any type of insulation glass (34 mm). Skylux does not deliver the glass.

Plexiglas® veranda sheets

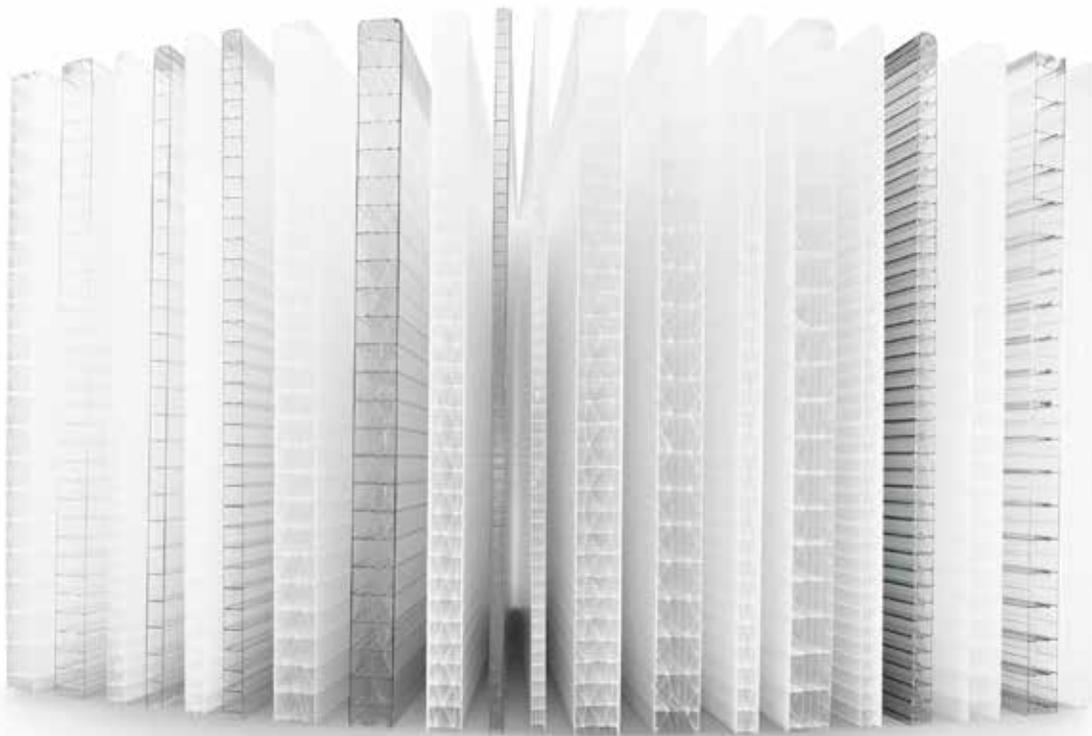

Plexiglas® or acrylic is a transparent, UV resistant and guarantees the full spectrum of daylight. Even after many years of use, you'll experience no yellowing or loss of light transmission.

Polyclear® veranda sheets

Impact-resistant, safe, lightweight, well insulating and appealing to the eye: these are undoubtedly the most significant features for a remarkable glazing. The multi-walled 16 or 32 mm polycarbonate sheets of Polyclear® combine all these characteristics because of the material and special cell structure. It's ideal for roof or wall glazing. The sheets are extremely impact-resistant, 250 times stronger than glass. Polycarbonate is also very temperature resistant and above all self-extinguishing, which is a major feature for fire prevention.

Pergotop sheets

These sandwich panels have an excellent insulation value. They are available in several widths, with superior noise reduction. Additionally, the smooth anti-scratch surface is very easy to maintain.

“Found the patio roof or veranda that you’ve been dreaming of? We’ll guide you through the process, step by step.”

WE’LL HELP YOU TO MAKE YOUR DREAM COME TRUE

Delivery

After order placement, we will deliver all materials as soon as possible.

Installation

Installation is easy and we’ll provide you with ample tips to make it a smooth experience. Our experienced professionals can even follow the installation if you’d like them to, to check that everything is okay.

Guarantee

Our profiles are CE certified in accordance with EN 1090-3. Skylux offers a 10-year guarantee on lacquer quality, a 5-year guarantee on colour and gloss retention and a 2-year guarantee on electric parts such as the Climaled.
