Terrace awning **ARINNA** is a reliable solar control system for those who like straight lines and simplified design. The square cassette is perfect for houses with flat and single-pitched roofs.

LED lighting in the elbows and in the cassette perfectly create a feeling of coziness and luxury.

Two construction colors are available: anthracite and black.

A wide variety of additional accessories such as a motor with emergency opening, remote control and wind sensors will help you take full advantage of this awning.

Possibility to choose not only black awning structure, but also black fabric.

For your divine rest!
