- Possibility to adjust the angle of inclination.

3° - 72° Installation to the wall
4,5° - 78° Installation to the ceiling

SPECIFICATIONS

Terrace awning HELIOS – a reliable sun control system for those who seek longevity. Due to a closed cassette, this awning can be installed in both areas, protected and unprotected from the environment. The cassette protects the fabric from rain, snow and dirt.

With the additional installation of a wind sensor, the awning will respond intelligently to changing wind speeds and if needed, it will fold. Wide choice of additional accessories: motor with an emergency opening option, remote control and wind sensor will allow you to take full advantage of the awning.

The awning is available in 4 colours: white, silver, brown and anthracite in this particular construction.
